

ABOUT THE STATE

HAPPENINGS OF INTEREST FROM DIFFERENT SECTIONS

The Woman's club of St. Albans has voted to purchase two \$100 Liberty loan bonds.

Otto Bennett has completed 13 years as editor and owner of the Manchester Journal.

The Senate of 1917 is to have its first summer reunion at Lake Mansfield June 23 and 24.

John W. Gardner of Rutland died at the hospital in Watervliet, N. Y., Saturday of smallpox.

Ex-Gov. E. J. Ormsbee observed his 80th birthday anniversary at his home in Brandon June 8.

Burton Bassett broke his leg recently while assisting in raising a barn at the place he rents in Bakersfield.

Mr. and Mrs. Curtis E. Sampson of Cornwall observed the 50th anniversary of their marriage, Sunday, June 10.

St. Albans is to have a street fair next month to raise money for the benefit of the soldiers who have gone from that city.

Richard Poro of Rutland is ill from the results of stepping on a rusty spike and his wife is in the hospital with an attack of appendicitis.

Rev. George C. Boorn, pastor of the Universalist church in Rutland, resigned last Sunday, his resignation to take effect Sept. 1. He has not announced his plans for the future.

The flower table at the Rutland library has a specimen of pitcher plant which has been grown there, being taken from a bog in the early spring. Its purple blossoms are in their prime.

Money with which the Rutland Parent-Teacher association had intended to purchase a playground, they have voted to invest in a Liberty loan bond. They are to invest \$100 in that way and let the principal of the fund draw interest until it has accumulated the original sum.

A fire in the partition of the Hotel Bardwell at Rutland Saturday called out the fire department and caused a damage of several hundred dollars before it was extinguished. It is thought to have been caused by a short circuit of the electric wires.

The year-old daughter of Mr. and Mrs. Prosper Lajoie of Rutland was badly injured recently when a 15-year-old girl who was carrying the child fell downstairs with her. The older girl was not much hurt, but it was at first feared the baby would not recover.

The 150th anniversary of the founding of the First Congregational church in Westminster was observed Monday with an historical address by the oldest living former pastor, Rev. F. J. Fairbanks of Ashburnham, Mass., who preached there 50 years ago.

A man from a town near Middlebury came to that place recently with a load of potatoes, for which he asked \$3.50 a bushel. When he found that he could get only \$3, rather than sell them for that, he left for Ticonderoga, N. Y., 20 miles away, across the lake, where he said he could get the \$3.50.

It is probable that some of the women in the house of correction will be transferred to the state's prison at Windsor, as at the latter institution the women have an opportunity to work on sewing machines and get pay for their work and there is a shortage of women there. At the house of correction the women get no pay for work done.

Library Meeting in Randolph.

The district library meeting of Washington and Orange counties will be held at the Kimball public library, Randolph, June 20, with the following program:

10:30 a. m., "How the Library May Be Patriotic"; "Teaching the Use of the Library to School Children"; Miss Evelyn S. Lease, Montpelier; "Problems"; luncheon.

1:30 p. m., address, Prin. Ernest G. Ham; address, Rev. Francis Metcalf; music; "Book Reviews"; Miss Rebecca W. Wright, secretary Vermont library commission.

Immigrant Makes \$107,000 in Year.

Darwin P. Kingsley, president of the New York Life Insurance company, tells in the July American Magazine of a wonderful man. He says:

"Do you know that the biggest income made by a New York Life man in 1916 was earned by an agent who came from German Poland to America in the steerage of an ocean liner—who arrived here friendless, penniless, and without a working knowledge of the English language."

"Last year this man made \$107,000 in commission alone, an amount \$32,000 greater than the salary of the president of the United States. When you consider that many life insurance agents make less than \$1,000 a year, you will see what this immigrant's achievement signifies."

"Yet there is nothing surprising to me in this. Almost every man has undreamed of possibilities. If something hits him in the right spot, if his ambitions and energies are unloosed, he will quickly discover these possibilities. Otherwise he may pass through life in an easy rut, never tapping the great reserves within him."

"Come on Over, See My Corn Fall Off!"

"I Put a Drop of 'Get-It' on Last Night—Now Watch—"

"See—all you have to do is to use your two fingers and lift the corn right off. That's the way 'Get-It' always works. You just put on about 2 drops. Then the corn not only shrives, but it falls off."

"That Was a Quick Funeral That Corn Had With 'Get-It'."

els, but looms from the toe, without affecting the surrounding flesh in the least. Why, it's almost a pleasure to have corns and see how 'Get-It' gets them off in a hurry and without the least pain. I can wear tight shoes, dance and walk as though I never had corns. 'Get-It' makes the use of toe-irritating salves, banding bandages, tape, plasters and other things not only foolish, but unnecessary. Use this wonderful discovery, 'Get-It', for any soft or hard corn or callous. It is the only safe and sure remedy for corns. You will never have to cut a corn again with knives or scissors, nor run chances of blood poisoning. Try 'Get-It' to-night.

'Get-It' is sold everywhere. 25c a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.

Sold in Barre and recommended as the world's best corn remedy by E. G. Russell, E. A. Brown, and Cummings & Lewis—Adv.

VERMONT HOME GUARD.

Governor Graham Will Soon Designate Places for Company.

Through the call issued to the men of Vermont by Governor Graham on June 7, a general and gratifying interest in the creation of the First regiment of Vermont volunteer militia, known as the Home Guards, has been created. Although the pay is only \$1.50 per day, plus equipment and sustenance, yet the nature of the service appeals to a large number of patriotic citizens who are eager to do their bit. The Home Guard regiment under command of Colonel Herbert T. Johnson, with William W. Russell as adjutant, headquarters at Montpelier, is a state organization and will not be subject to call into federal service. It is not created for the purpose of relieving the troops now doing duty in the state in guarding bridges and public property, as it is expected that such protection will be provided by the federal government so long as such is necessary, but it will be used for state police purposes if occasions demanding its services arise.

As all qualified persons between the ages of 18 and 65, except those between the ages of 21 and 31 who are liable to draft, are eligible, it is expected that this Home Guard regiment will be easily filled. Opportunities for enlisting will be afforded as soon as the places in which companies are to be formed are designated by the governor.

The Uses of the Liberty Loan.

To the American citizen who gives some consideration to features of his investments other than the mere money return from them, the uses to which the money raised by the sale of the Liberty Loan bonds is to be devoted will prove a patriotic inducement to purchase such bonds. A certain dignity attaches to money invested in a high and noble cause.

The Liberty Loan is made by the United States government to purchase arms and equipment for American soldiers and sailors, food and supplies for the American army and navy. The money is to be spent in America for those Americans who are fighting America's battles on land and sea.

Part of the money raised by the sale of Liberty Loan bonds is to be loaned to our allies; this too is to be expended in America. It is to be spent for food and supplies for the armies of our allies fighting on our side on the various war fronts in Europe. It is America's first contribution towards doing her part in the war we are engaged in.

It is billions for defense in the world-wide war autonomy is waging against democracy, but not one cent for tribute.

ORANGE COUNTY FARMERS' ASSOCIATION NOTES.

Notes for Week Ending June 9.

The government crop report for June 1 gives us some interesting figures on which to base some planning for our next winter's feeding. In Vermont wheat acreage has been increased so as to give a forecasted yield of 340 per cent of last year or 84,000 bushels in the state. The United States total figures, however, show an increase of only 3 per cent over last year, which would indicate high prices for wheat products another year. Wheat feeds are now lower in market than before for several months. How about getting together for that co-operative carload order? Oats in Vermont show an increase of 31 per cent and of the country as a whole of 10 per cent. Hay, however, promises but 76 per cent of last year's crop in Vermont and 94 per cent in the country. It would look as though it would be a wise policy to hold on to our surplus hay.

A survey of acreage of potatoes in Randolph shows that nearly two and a half times as large an acreage has been planted as last year. Probably no other town shows quite so large an increase but throughout the county there has been an increased acreage. To secure the best returns for our labor, seed and fertilizer requires that these potatoes be carefully cared for during the season. Spraying for blight with Bordeaux mixture is one of the ways of increasing the efficiency of the crop. For a field of size of acre or more and in many cases on smaller fields the home-mixed Bordeaux is probably the best. Copper sulphate or blue vitrol is going to be high in price, with some scarcity. Now is the time to plan and if you have not already ordered your supply, the quicker the better. Farmers' clubs have already been sent notices of places where it is procurable and others will be if you write for it. It requires about four or five pounds for 50 gallons of water or one quart for one acre. Four sprays are necessary, starting early in July, through August and in early September. Full directions for making and using will be sent on application to the county agent.

To secure the 1,000 members for the county association we need the active support of at least one-half the farmers of the county. Is it too much to ask of any farmer in Orange county that he do his bit towards the support of the organization in the county which has a man in the field to whom you can turn for information regarding the best methods for handling crops and dairy as found from the experiences of the best farmers?

Shake into your shoes

Allen's Foot-Ease, the antiseptic powder to be shaken into the shoes and sprinkled in the footbed. It relieves painful swollen, smarting feet and takes the sting out of corns and bunions. Used by the allied and German troops at the front. Allen's Foot-Ease is a certain relief for sweating, callous, tired, aching feet. Sold by druggists everywhere. 25c. Always use it to break in new shoes. Trial package FREE. Address, Allen S. Olmsted, LeRoy, N. Y.—Adv.
